NEW Webpage on Women's Golf Club Sets

WEBSITE

I added an area to my website that has **all the research** and **easy order process stress free!**
Let's get you started.. I answer all of the questions below on my new webpage -> Click [HERE](#)

What golf club set should I get?

When is the right time to buy a starter set?

Why start off with a starter set?

Why not get the cheapest box set you see online or at the store?

Why not get clubs from a yard sale?

Why not get cheap hand me down clubs cut down?

How can I order and get confirmation and questions answered by a golf pro and **by when?**

What are the next steps?

Why did I make this area on my website and provide a way to order clubs?

RESEARCH

There's so much interest in finding information for female golfers to find the right golf clubs for them to buy. That information is hard to find and then finding information that isn't biased to one company is even harder to find!

Wouldn't it be great to have a website that has multiple rating factors that women look for that help each person find their best fit?! Also, from different companies. **I've made it!**

Check them out here -> [Number of Clubs & Set Composition](#), [Price](#), [Reputation](#), [Longevity](#), [Height](#)

ORDERING

How about providing a way to order in a non-intimidating way that takes the in-store environment completely away? **I've got it!**

I partnered with Head Golf Professional Mike Stacy at Shining Rock Golf Club to provide a high-end country club experience ordering! (Click [HERE](#))

Upcoming One Day Events
