What should you get and when?

New Facebook Group to Connect Women

Women's New England Golf Connection

This group is for women interested in meeting other women who enjoy golf! It is a private group and welcomes new engaging members of all golfing abilities!

From my clinics across New England, even clinics at the same facility, there are missed opportunities to meet other women that are not in the same group. That's where this group comes in, to connect!

My goal is to connect women who want to meet other women who enjoy golf! Want to go practice at the range, play 9 holes, go to Top Golf and have a fun night out and want some new friends to go with?! Post it in this group!

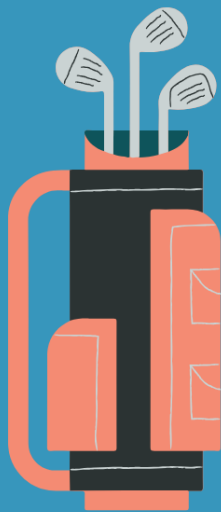

Everyone in the group is in the same position and Naomi hopes this group will be a comfortable way of reaching out and connecting!

Naomi will also post upcoming events for women to connect in this group.

Search for -> [Women's New England Golf Connection](#) and click the [+Invite button](#) to join the group!

Golf Clubs - Choosing Process

WHAT?

**IF NOT,
NOW
WHEN?**

What clubs should you get and when?

It's almost holiday season and I know presents are on our minds. Why not add new golf clubs to your list this year! Not sure what to get? I'm here to help!

For those newer to the game and those looking for their next step, I've made a space on my website to help! I answer all your important questions and provide a ranking system to help you through the club choosing process to feel confident in your decision!

From buying a full set of clubs to just adding one or two onto your set, you'll make an informed decision that can make a big difference!

Get there by going to my website at www.shesmygolfpro.com and click on the WOMEN'S GOLF CLUB SETS tab.

I would love to hear if this has helped you and also if there are any questions to add, so please reach out and let me know!
